The Perfect Meal Charles Spence, Betina Piqueras-Fiszman, 2014-09-22 The authors of *The Perfect Meal* examine all of the elements that contribute to the diners experience of a meal (primarily at a restaurant) and investigate how each of the diners senses contributes to their overall multisensory experience. The principal focus of the book is not on flavor perception, but on all of the non-food and beverage factors that have been shown to influence the diners overall experience. Examples are: the colour of the plate (visual) the shape of the glass (visual/tactile) the names used to describe the dishes (cognitive) the background music playing inside the restaurant (aural) Novel approaches to understanding the diners experience in the restaurant setting are explored from the perspectives of decision neuroscience, marketing, design, and psychology. 2015 Popular Science Prose Award Winner.

Virtual Holocaust Memory Matthew Boswell, Antony Rowland, 2023 The Holocaust was the defining cataclysm of modernity. Now, more than three quarters of a century later, the immersive, interactive technologies of the digital age are dramatically refashioning our memory of that genocide. *Virtual Holocaust Memory* offers the first comprehensive account of a unique historical juncture, as twenty-first century digital culture meets the edge of living Holocaust memory. The book considers a range of projects that are being developed by museums, archives, businesses, and educational organizations in the USA and Europe, including interactive video testimony, Virtual Reality films, Augmented Reality apps, museum installations, and online exhibitions. Drawing on an original conceptual framework that incorporates connective memory, palimpsestic testimony, and a notion of 'truthfulness' first applied to testimonial writing by the survivor Charlotte Delbo, this groundbreaking book argues that the value of virtual Holocaust memory--that is to say its truthfulness--will ultimately come to rest on the connections that it establishes across a complex set of subject positions. These range from 'new bystanders', who encounter Holocaust memory from a position of relative safety, to the traumatized victims whose extreme physical and psychological experiences made communicating so difficult in the first place.

Management Communication James S. O'Rourke, 2023-03-30 This new edition of *Management Communication* is a case-based textbook that introduces students to the strategic communication methods that are crucial to master in order for them to develop into effective and ethical managers at all levels of business. Effective communication skills are necessary for success in the business world, and James O'Rourke has written a highly readable book filled with anecdotes and examples to

engage students in the learning process. This seventh edition includes both classic and new features. The strategic approach is integrated throughout the book, allowing students to understand how a communicated message affects the business as a whole. New case studies provide students with hands-on experience of scenarios they will encounter in the real world, looking at global companies such as Facebook and Nike. Further updates include new content on technology, corporate culture, and disinformation. An ethical thread is woven through the text, demonstrating how ethical decision making can be applied in all aspects of communication. Chapters on intercultural communication, nonverbal communication, and conflict management provide students with the skills to build relationships and influence stakeholders – key skills for any manager. This text will provide students with a well-rounded understanding of management communication and the support material ensures it serves as a complete resource for instructors.

Black Mirror and Philosophy David Kyle Johnson,2019-12-03 A philosophical look at the twisted, high-tech near-future of the sci-fi anthology series Black Mirror, offering a glimpse of the darkest reflections of the human condition in digital technology Black Mirror—the Emmy-winning Netflix series that holds up a dark, digital mirror of speculative technologies to modern society—shows us a high-tech world where it is all too easy to fall victim to ever-evolving forms of social control.In

Black Mirror and Philosophy, original essays written by a diverse group of scholars invite you to peer into the void and explore the philosophical, ethical, and existential dimensions of Charlie Brooker's sinister stories. The collection reflects Black Mirror's anthology structure by pairing a chapter with every episode in the show's five seasons—including an interactive, choose-your-own-adventure analysis of Bandersnatch—and concludes with general essays that explore the series' broader themes. Chapters address questions about artificial intelligence, virtual reality, surveillance, privacy, love, death, criminal behavior, and politics, including: Have we given social media too much power over our lives? Could heaven really, one day, be a place on Earth? Should criminal justice and punishment be crowdsourced? What rights should a "cookie" have? Immersive, engaging, and experimental, Black Mirror and Philosophy navigates the intellectual landscape of Brooker's morality plays for the modern world, where humanity's greatest innovations and darkest instincts collide.

Good News to the Poor Tim Chester, 2013 The chasm between evangelism and social action needs to be bridged. Chester convincingly argues that the truth of the gospel is best understood and embraced in the context of loving action and gospel-centered community.

A Companion to Motion Pictures and Public Value Mette Hjort, Ted Nannicelli, 2022-03-03 A singular collection of original essays exploring the varied intersections of motion pictures and public value A Companion to Motion Pictures and Public Value presents a cross-disciplinary investigation of the past, present, and possible future contributions of the moving image to the public good. This unique volume explores the direct and indirect public value developed through motion pictures of different types, genres, and screening sites. Essays by world-renowned scholars from diverse disciplines present original conceptual work, philosophical arguments, historical discussion, empirical research, and specific case studies. Divided into seven thematically organized sections, the Companion identifies the various kinds of values that motion pictures can deliver, amongst them artistic, ethical, environmental, cultural, political, cognitive, and spiritual value. Each section includes an introduction in which the editors outline main themes and highlight connections between individual chapters. Throughout the text, probing essays interrogate the issue of public value as it relates to the cinema and provide insight into how motion pictures play a positive role in human life and society. Featuring original research essays on a pioneering topic, this innovative reference text: Brings together work by expert authors in disciplines such as Philosophy, Political Science, Cultural Studies, Film Studies, Sociology, and Environmental Studies Discusses a variety of institutional landscapes, policy formations, and types and styles of filmmaking Provides wide and inclusive coverage of cinema's relation to public value in Africa, Asia, China, Europe, the Middle East, and the Americas Explores the role of motion pictures in community formation, nation building, and the construction of good societies Covers new and emerging topics such as cinema-based fields focused

on health and wellbeing A Companion to Motion Pictures and Public Value is an ideal textbook for advanced undergraduate and graduate courses in Film, Media, and Cultural Studies, and is a valuable resource for scholars across a variety of disciplines

Sugarcane Bioenergy for Sustainable Development Luis A. B. Cortez, Manoel Regis L. V. Leal, Luiz A. Horta Nogueira, 2018-10-25 In recent years, there has been a rapid expansion of the growing of crops for use in bioenergy production rather than for food. This has been particularly the case for sugarcane in Latin America and Africa. This book examines the further potential in the context of the food versus fuel debate, and as a strategy for sustainable development. Detailed case studies of two countries, Colombia and Mozambique, are presented. These address the key issues such as the balance between food security and energy security, rural and land development policies, and feasibility and production models for expanding bioenergy. The authors then assess these issues in the context of broader sustainable development strategies, including implications for economics, employment generation, and the environment. The book will be of great interest to researchers and professionals in energy and agricultural development.
